Venduni Smart Markets

No lines, no checkout - Just grab & go

Venduni's Smart Micro Markets revolutionize how consumers shop. No more lines at cash registers or the inconvenience of self-checkout bar scanning. The AI-based smart shops can accurately recognize the identities of customers, their trajectory of movements as well as their other actions during shopping using the computer vision-based dynamic recognition technology and advanced semantic action recognition technology, and can automatically generate the bills and charge customers after they have left. The big data analysis based on deep machine learning helps to realize smart operations and intelligent decision-making, to increase management efficiency for retailers at a lower cost, and to provide a more convenient shopping experience for customers.

Smart Market

First 1

Swipe card - Scan QR code - Facial Recognition

Second 2

Take whatever you want.

Third 3

Leave and an electronic receipt is sent to you automatically.

Benefits at a glance - Swipe, Shop, Go

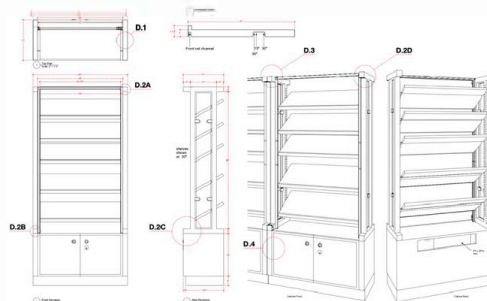

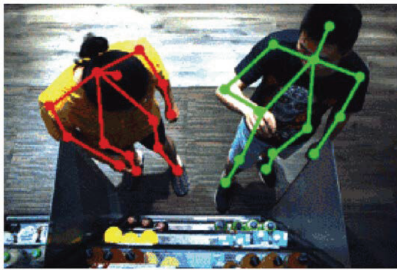

- Creates new efficient unattended retail destinations
- Eliminates theft and cost of on-site labor
- Improves speed of service
- Manages inventory and replenishment of products automatically
- Eliminates non-approved products from being sold
- Allows customers to shop and interact with their selections before finalizing a purchase
- Creates database of users
- Easy payment by credit card or facial recognition with digital receipt
- Real time remote monitoring and customized reporting

Venduni Smart Markets *Just Grab & Go*

Standard specification

A standard smart shop is recommended to be ~15 square meters, and 3.5 meters of height. It can be customized according to the actual site area and requirements of clients.

Hardware - Software - Services

Venduni has the technology and experience to custom design and install your unique AI vision store to your exact needs. We manage the process from beginning to end, allowing our customers to unlock the huge benefits of Shop & Go Convenience.

Venduni Roborista Espresso Tower

Just grab a cup & go - 24/7

9100 is the new generation of Wittenborg vending machines, a further leap forward in design and technology based on its hugely successful predecessor, the 7100 Plus. 9100 Offers a wide spectrum of selections and choosing a drink is simplicity itself, thanks to the intuitive interface of the 10" HD touch screen, which visually guides the user. LED lights in the visible coffee canister enhance the look of the fresh coffee beans, and a light in the cup area shows you exactly where to place your cup. 9100 Delivers roast and ground coffee, coffee from whole beans and a large number of mixed drinks, from hot frothy cappuccino to creamy chocolate milk. Personalized drinks can easily be 'saved' to the machine by customers. Disclaimer base cabinet and table-plate available as accessories

9100 Wittenborg

Key Features

Smart Display

User-friendly, simple and energy efficient.

Easy Deployment

Easy maintenance, self contained tank or water line options available, Small Footprint, Real Lavazza Coffee Beans grind to order, La DUNI Custom drink recipes

Payment Flexibility

Easily pay via mobile app, mobile wallets, credit card tap/swipe or QR code.

Intelligent Operation

Leave and an electronic receipt is sent to you automatically and remembers previous orders for faster checkout next time.

The Coffee You Want

Whenever You Want It

Venduni Roborista Coffee Towers

Just grab a cup & go - 24/7

7100 Plus *When only non espresso drinks are preferred*

The modern, elegant Wittenborg 7100 Plus range have a cool and classic look. The design is characterized by a capacitive keyboard, which is enhanced by subtle LED backlights, a visible coffee canister and a large, attractive poster. The machine delivers delicious freshbrew coffee, coffee from whole beans and a large number of mixed drinks, from café au lait and steamy hot chocolate to hot water for tea.

- Intuitive user interface featuring a back-lit, touch sensitive keyboard
- Freshbrew coffee, bean2cup or instant coffee and three additional instant canisters
- Instant version with five canisters
- User-friendly capacitive selection panel, with up 4 pre-selections and 23 direct selections
- Cold water - still or carbonated - is optional
- Base cabinet and table plate available as accessories
- Freevend and compatible with cashless and other payment systems

Dimensions: H870*W450*D475mm Available versions: FB, B2C and IN

7300 *When increased volume is needed*

The 7300 is a fully-automatic hot drinks machine with a 300 cup capacity. The machine has an extra large coffee canister which holds 3 kg and it is ideally suited for various locations, such as offices, office kitchens; car dealers, reception areas and so on...

The 7300 uses cups dispensed by the machine but can also deliver coffee into the user's own cup or mug. It can even deliver hot drinks in thermos jugs.

The machine has a dual coffee canister which may be used as a single canister (by removing the central separator)

- Large ingredient canisters mean fewer re-fills
- Large advertising area with 4-line red LCD display
- User-friendly selection panel with up to 4 pre-selections and 23 direct selections
- Uses cups dispensed by the machine or the customers personal cup/mug

Dimensions: H930*W540*D600mm Available versions: FB

Dunivery Bot Fleet with Kiwibots

The future of delivery.

Have La Duni award-winning products a click away.

In collaboration with Kiwibots, Venduni will be able to offer affordable, autonomous and self-driven, bot delivery within a 1.5 mile radius from the base store to customers that prefer a faster, safer, more convenient and economical alternative to regular delivery services that charge a fortune for each delivery. These bots are supervised from an operations control base in addition to implementing the latest vision technology, GPS and cellular support. To insure a timely and safe delivery as well as smart routing protocols. The Dunivery Bot Fleet will be an important key element of the roll out strategy.

Key Features

Reliable

We devote meticulous attention to detail and abundant care to each and every delivery. Our delivery service is faster and cheaper than any out there, empowering you to get whatever you want when you want it

Friendly

Our adorable robots — an icon on many campuses — have brought joy to thousands. They're here to improve your life while also reducing the congestion caused by delivery cars. We're making cities more livable and friendly for the people who matter: you.

Efficient

Thanks to our cutting-edge behavioral neural network, Kiwibots are able to seamlessly mesh into the fabric of urban landscapes. Thanks to the technology we use like Smart Brake and Street Crossing Mode, KiwiBots will never inconvenience or harm you, your family, your friends, or your neighbors.
